# What is Argyle?

Gershman Mortgage has partnered with Argyle to facilitate a safe, simple, and secure way to verify your income and employment. Argyle is an automated verification of employment and income solution that reduces the time for you to close on your loan.

Argyle is simple and easy to use

① Search for your employer. If your employer name does not appear in the search results, search for your payroll provider instead.

② Select your employer or payroll provider and log-in using your payroll credentials. If you've forgotten your credentials, select "Login help"

③ Repeat steps 1 and 2 for any additional employers you have.

We're serious about security and safeguarding data

We're compliant with the highest security and privacy standards. Powered by Google KMS, we keep all data encrypted at RSA 4096 (the same grade used by the US military) with SHA-256 signing. Argyle is recognized as SOC 2 Type II compliant and has earned a ISO 27001 certificate and PCI DSS certification.

We've earned the trust of government entities and large financial institutions

FAQ

Will my employer or payroll provider know that I am sharing data?

No. Your employer is not notified when you connect your employment account.

I forgot my employer or payroll account password. What do I do?

You can select the "Login help" option from the Login screen toreset your password. The "Login help" button will direct you to your employer or payroll provider's website to initiate the password reset process.

I can't find my employer or my payroll provider, or the log in is not working. What should I do?

We'll need to verify your income and employment through another method. Please reach out to your loan team for additional guidance.
